

# Decorative Laminate Veneers

Conestoga West's Argos doors and drawer fronts are available in a selection of environmentally friendly material options for the modern kitchen and bath. This collection utilizes Thermally Structured Surfaces to create realistic grain patterns and textures conveying contemporary styling and beauty.

*A variety of textured cabinet doors & drawer fronts in sleek, contemporary designs*

Serengeti

- Cost savings of 30% or more compared to finished wood veneer doors
- Available in 18 colors with matching or pewter edgeband
- Highly textured surfaces designed and manufactured in Italy
- Strong, lineal grain patterns in attractive colors contain the natural beauty of wood
- Surfaces are made from wood shavings, fiber, chips and non-treated aged wood resulting in an environmentally friendly product that supports any sustainability program
- Highly durable surfaces are especially resistant to scratching, spotting, fingerprints and humidity
