Quality-made solutions,
designed your way

Advantage framed

An extensive offering of framed wall, base, vanity, home office, and utility cabinetry in standard and custom sizes. The framed Advantage line is available in several popular species, and the all-plywood cases deliver the lasting strength you expect from Conestoga.

- Traditional to Transitional – the front frame provides the opportunity for overlay, inset, and beaded inset kitchen designs, offering versatility to achieve anything from timeless refinement to a more streamlined, updated look.
- Stability and Strength – built with solid wood front frames, Advantage cabinet construction delivers rigidity and long-lasting durability. The added strength helps ensure consistent performance, while multiple wood species options allow for seamless integration into a wide range of styles.
- Extensive customization across 1,500+ products, manufactured to the nearest 1/16" to ensure precision and consistency.
- Durable 5/8" solid wood dovetail drawer boxes, with upgrade options for all your storage needs.

Vesta full access

With exceptional design flexibility and easy assembly, Vesta delivers a complete, customer-friendly solution. Its full access construction allows for greater ease of reach and increased storage space within each cabinet, while English dovetail drawer boxes provide strength and everyday reliability. A wide selection of door designs makes it easy to create a finished look your customer will love.

- More Interior Storage Space – with no frame, you'll have more useable space within each cabinet. A larger opening provides easier access to kitchen items.
- Modern, Clean Aesthetic – the seamless look and sleek lines of full access pairs perfectly with contemporary and modern design styles.
- Choose from a variety of wood species or alternative materials for your project needs.
- Available in many sizes and options, featuring easy, intuitive assembly that strengthens your bottom line without compromising quality.

Many accessories and options are available with Advantage Framed and Vesta Full Access Cabinetry.

Support 24/7

connex[®]

With Conestoga **Con-Nex**[®], you can generate instant quotes, seamlessly convert them into orders, and manage every detail of your project—from pricing and sizing to room organization. Enjoy secure, 24/7 access to keep your business moving forward.

Watch our Advantage and Vesta **Assembly Videos** on the Conestoga Wood YouTube channel, @ConestogaWood, for step-by-step guidance and helpful tips that make RTA assembly simple.

Customer Business
Portal

The **Conestoga Customer Business Portal** (CBP) is an invaluable tool providing secure access to quotes, orders, invoices, and shipments—all from a single login. Users can also download literature, view the latest company news, and more.

Developed in partnership with AdvanceWare, Conestoga's **2Configure** software lets you easily organize, design, and create kitchens for your customers. Integrated with our Product Manual, it automatically pulls in cabinet components for accurate pricing and fewer errors.
