We craft Extraordinary

Custom Crafted Doors & Components
In 1964, Conestoga Wood Specialties was born in a small garage in rural Lancaster County, PA... a unique place where family so often is the driving force behind business success. It’s behind the work ethic that has enabled Conestoga to craft the finest cabinetry doors and wood components in the industry. And most important, it’s behind our passion to treat each customer like family.

Those who know Conestoga understand that the word used to describe us has always been dependability. They know that they can depend on the quality and beauty of our materials... on the painstaking precision of our craftsmanship... on the knowledge and helpfulness of our people... and on our unrivaled record of complete and on-time delivery over 99% of the time.

Absolute dependability is what has made us special in our industry. It has made us number one... but only because we are driven to make you number one, every single day.
Imagineering, Everyday

It never ceases to amaze how the human spirit continually strives for fresh, innovative, imaginative ways of expression...which is precisely what fuels us in our ongoing quest to push beyond the status quo in all we do.

Wood Beauty

Transforming raw wood into pure beauty requires the intuitive selection and quality grading of countless species, both common and rare, by our people who, through years of experience, have risen to the level of masters of their art.

Handcrafted Construction

In the more than half a century since our founding, the world of custom cabinetry has been blessed with countless technological innovations, but we have yet to find one that comes close to the pure skill, talent, and passion of our seasoned craftspeople.

Finishing Strokes

We offer thousands of combinations of species, stains, paints, and glazes, so there’s literally no end to your finish possibilities.

We craft

Exceptional
Boundless Flexibility
One basic design opens the possibility to doors for any taste and any budget.

All products on this page are shown in Hard Maple with Natural finish and Brown glaze.

EP | Edge Profile    PR | Panel Raise    FB | Framing Bead    DF | Drawer Front

The Conestoga Raised Panel (CRP-10) is a designer’s dream, offering limitless possibilities and flexibility in style and price point. Interchangeable framing beads, panel raises, and edge profiles allow the imagination to soar while always minding budget.
We craft

Timeless

Shaker

Centuries ago, simple lives yielded simple lines that will forever stand the test of time.

All products on this page are shown in Hard Maple with Ashen Truetone.

High Gloss Surfaces

Our Synchronicity High Gloss program raises gloss desirability by a factor of three. From an array of solid colors to attractive wood grains and intriguing patterns, our three gloss material options are each crafted with their own unique qualities, establishing multiple price points... but all offer exceptional durability, heat and scratch resistance, UV protection from color fade, and easy cleaning and care.
Access Success

What’s better than a place for everything and everything in its place? For those who demand organization, practicality, and ease, it’s all about fingertip access. It’s what you need being precisely where you need it to be—convenient as a simple turn here, a quick and easy reach there.

Drawer Construction Reliability

It’s the brawn behind the beauty—classic English dovetail construction that is the foundation of our custom drawer box program. Crafted of the finest beautiful hardwoods, protected with a durable clear satin finish to preserve that beauty—and the custom sizes and functionality that have made them the master cabinetry craftsman’s drawer boxes of choice.

Range Hoods

There is something about range hoods that makes them a special element in the kitchen. Their very nature gives them the ability to become a truly uncommon focal point of the room. For this reason, we continue to place uncommon emphasis on expanding our range hoods to offer new and exciting mantle designs, transitional hoods, elegant European styles, island hoods, and much more...all in sizes to accommodate nearly any space.

Crown, shown with E-Series range hood.

Mouldings

Time to complete the look! From crown, to light rail, to baseboard and trim, these seemingly simple additions add so much – at the ceiling, at the bases of cabinets, at the floor – complementing a room’s design with alluring subtlety. These are among the details that elevate great to extraordinary.

Incomparable Integration
Enhancing cabinetry with carved accents and functional accessories is all about personal taste. Some choose the distinctively ornate, others, simple and understated. Some feel it in that middle ground. But it’s the flawless integration of these complementary components that makes all the difference... that seamless blending of the perfect touches that invariably evokes the resounding response, “yes... that’s it. That’s exactly right!”

Architectural Accents
Creating the height of style and design with extraordinary architectural details can mean the difference between great and incredible. Our selection of over 2,000 posts, feet, and corbels offers the discriminating homeowner classic designs, both simple and ornate... in any size, species, or configuration.
Lasting First Impressions

The finishing touch of our craft is always the first image that meets the eye. That's why we've gone to great lengths to be the finish leaders. Whether it's a clean and simple painted effect, or one augmented with an intriguing glaze, or an unusual stain that captivates the viewers, our finishing skills are unparalleled. With well over a thousand finish options and custom creations, the possibilities are limited only by the imagination. Painstakingly hand applied or using the latest finishing technology, and sealed to preserve the beauty for a lifetime.
